Heat		Thunder		Getting Ready for Juniors	We are separating the FLICX pitches and providing each team with half a pitch length to ball off 16m's stump to stump. Focusing on bowling on to the pitch and also running between the wickets.
Sixers		Stars			
Stars		Hurricanes			
Thunder		Heat			
Hurricanes		Renegades			

Notes- Week 7. Catching, running between the wickets and include others in the game and activities to ensure no one misses out. Level 3 we should now be encouraging team participation as next season they will be eligible to play in the junior competition. The aim is to make sure that their continuation towards junior cricket is with their friends. Having gone through this year myself in juniors, it is a massive step up because the kids experience what its like wearing equipment, playing for 3 hours and facing a harder ball that gets an almighty wack with children that are in year 4/5 in comparison to kids that were in year 3. The maturity physically is a massive step up so the focus needs to be in team bonding and encouragment.
